EDUCATION

GLA University

Bachelor of Technology in Computer Science

Mathura, UP

Aug. 2021 – May 2025

Ess Ess CONVENT

PCM,CBSE Central Board of Secondary Education

Agra, UP

Aug. 2014 – May 2020

EXPERIENCE

Backend Development using SQL and MongoDB (JOVAC)

June-July 2023

- Completed Jovac course, specializing in MongoDB and MySQL, gaining in-depth knowledge of database management systems.
- Developed practical skills in MongoDB, including schema design, query optimization, and data modeling for scalability.
- Attained expertise in MySQL, covering database design principles, SQL query optimization, and administration.
- Gained hands-on experience in data retrieval, manipulation, and indexing using both MongoDB and MySQL.

PROJECTS

ShopNest | *Node.js, Ejs, MongoDB, Javascript, Express, Html, Css, Bootstrap*

Nov 2023 – Dec 2023

- ShopNest is an online platform that allows businesses to display and sell their products or services to consumers through the internet.
- Developed a full-stack web application using Node.js with Javascript, Html and Css as the frontend
- Authentication is done with the help of passport.js and passport google OAuth technique
- Server side Validation is done with the help of JOY package

Chat-App | *React, Socket-io, Node.js, Express, MongoDB, Ejs*

Dec 2024 – Jan 2024

- Chat-App serves as a digital platform specifically crafted to enable real-time communication between users.
- Developed a Chat-App web application using Node.js, Express, MongoDB with React as the frontend
- LocalStorage is used to store the data of different users on client side and MongoDB on server side
- Used Socket-io as a pipeline between different users which helps them to communicate with each other

SnackSprint | *React, Node.js, Express, MongoDB, Ejs*

Feb 2024 – Present

- SnackSprint is used to set restaurant according to user requirement and where user can order dishes too.
- Developed a Chat-App web application using Node.js, Express, MongoDB with React as the frontend
- LocalStorage is used to store the data of different users on client side and MongoDB on server side

ACHIEVEMENTS

HACKATHON

- Participated in GLA Internal Smart India Hackathon 2023

CODING

- Successfully solved over 500 LeetCode coding challenges.
- Actively participated in 40+ LeetCode contests with a current LeetCode rating of 1700
- Engaged in 10+ Codeforces contests and achieved a maximum Codeforces rating of 1212

TECHNICAL SKILLS

Languages: Java, SQL (Postgres), JavaScript, HTML/CSS, MongoDB

Frameworks: React, Node.js, Bootstrap

Developer Tools: Git, Github, VS Code, Visual Studio, Eclipse

Libraries: React, Socket-io
